@Fulfillment Concept

- @Fulfillment revolutionizes physical goods fulfillment
- @Fulfillment offers Logistics what [@Post](#) offers Postal Services
- @Fulfillment integrates Intelligent Inbound Logistics & Intelligent Delivery Point
- @Fulfillment is a Paradigm Shift in centuries old Logistics Practices

The e-curse of **NOT** @Home

- **@Fulfillment solves the no. 1 problem of logistics failing to deliver the goods to the **NOT** @Home customer**
- **The additional cost, delay and customer frustration of having to contact the delivery company and re-arrange for the delivery is the great e-curse for e-tailers**

NOT @Home Workarounds

- **Click-and-Mortar e-commerce**
 - **Order online but consumer has to collect**
 - **Most of the drawbacks of mortar business**
- **On failed delivery consumer collects**
 - **@post office**
 - **@service station or other 24x7 outlet in the nearest locality**

@Fulfillment Revolution

- **Never miss a delivery**
- **Never have to wait @Home for delivery**
- **Never have to go the Post Office to send letters or parcels or contact a courier**
- **Serves all incoming and outgoing letters and parcels of a @Home or business**
- **Seamlessly linked to Postal Services**
- **Seamlessly linked to Secure Payment**

The @Fulfillment continues the vision of:

- *Method for Integrating Internet SMTP Electronic Messaging with Postal Services – original thinking from 1997*
- *Inbound Multi-Channel Hybrid Mail*
- [@Post](#) Postal Messaging and our [IP](#)

@Fulfillment Investor

- **Investors encouraged to contact**
- **Intellectual Property on sale:**
 - Business Models & Specifications
 - Trade Secrets
- **Minimum payment for peek review \$10m**
- **You are ideally a Postal Service or a very large logistics company e.g. UPS. DHL or FedEx or have access to similar resources**

Physical Delivery 2020+

- Mailboxes evolve into Intelligent Physical Delivery Points forming part of the Physical Access Control and Security of a Premise
- Letter Post & Logistics to Merge
- Rule and Rights of the B-Party Receiver will be imposed on the A-Party Sender
- Changes to Universal Delivery Obligations

Inbound Logistics Screening

- All inbound mail and parcel post after entering the in-bound delivery stream will be subject B-Party rules and screening
- Scanning, Imaging, Physical Inspection, Storage and Archival, Hold or Destroy or Deliver as per B-Party rules
- See [@fulfilment](#), [@post](#) and [investors](#)

Intelligent Inbound Mail

- The greatest Postal Service asset 2020+ is the daily visit to every Physical Delivery Point. This opens next to endless possibilities to replace any letter post revenue lost 2020+.
- The good old “*Postie*” will be the Intelligent Mail Router 2020+ – the core business has not changed for more than 2000 years will be revolutionized like never before.
- Our R&D focus is on Intelligent In-Bound Mail.

Intelligent Delivery Point

- The true revolution in Logistics and Postal Service will be pushing out Intelligence from the Network Core to the Edge.
- Our R&D focus is on Intelligent Delivery Point IDP for Logistics and Postal Service.
- We anticipate mass deployment in 2020-to-2050.
- [Contact](#) us to [purchase](#) our 2020+ Intellectual Property for Postal Service and Logistics.
